School District and Charter School Leaders

Re: Alternate Work Expectations for School Staff Members During Closure Period

Dear School District Superintendent/Charter School Leaders:

The NMPED has received many questions regarding expectations for staff during the next three weeks. Districts and charter schools are expected to work collaboratively with employees and unions to determine how to most effectively utilize paid staff during the closure to the best of their ability. Through this collaborative planning, schools and districts should still be meeting the expectations for social distancing, complying with the Governor's public health order, and managing employee needs. These expectations can be met through telework, video/teleconferencing, and live reporting to work under controlled circumstances. Generally, all staff should be considered available to participate in activities that contribute to the ongoing improvement of the educational process and/or to assist with ongoing services to be provided by the school district or charter school (i.e. cafeteria services, health services, staffing district call centers, community support, and student/family support).

Examples of this work include but are not limited to:

- **Administrators**
